

Ten Reasons to Offer

at Your Childcare Facility

1. It's excellent for advertising!

Display a collage of smiling, happy children practicing new skills on a colourful play paradise! Get referrals from parents who value having access to an awesome and inexpensive gymnastics program. When providing a tour to a prospective family, have them peek into the room where a group of children are practicing their rolls and swings under the enthusiastic encouragement of specialized coach.

2. Our services are affordable.

Bottom line: we're the cheapest gymnastics provider in town.

3. It's easier to ensure that kids get enough exercise.

This is especially true during the winter.

4. Kids gain safety skills and knowledge.

Gym Jam participants learn ways to move their bodies safely. They learn "safety landings" and how to avoid injury in a fall. They learn the importance of giving playmates space during physical activity, to watch for dangers objects in their play space, and that there are lots of fun and challenging alternatives to try on the monkey bars besides dangling from one's knees!

5. No need to worry about recruiting qualified staff.

Our coaches have education and experience teaching gymnastics-based physical literacy to young children, minimizing safety risk and maximizing learning opportunities.

6. Physical activity= calmer children, longer napping children.

7. You're covered.

We come with our own five million dollar liability insurance.

8. For once, something simple.

The amount of time and energy required of daycare (or after-school care) staff to plan, prepare, and teach a curriculum which ensures children's growth on all parameters must be enormous. Here's one activity that's a breeze for staff and a blast for participants!

9. Happy families.

For parents, the collaboration between their child's daycare and Gym Jam is yet one more piece of assurance that their child will grow and have fun while they are at work. Parents regularly tell us that their children look forward to "Gym Jam Day" each week.

10. Free learning opportunities for staff.

We are always happy to share our knowledge. We are proud to offer up to two complimentary physical literacy seminars per year to daycares we collaborate with.
